1.0 Introduction

Background

- 1.1 In May 2013, the three South Worcestershire Councils (SWCs) submitted the SWDP (January 2013) for independent examination in accordance with Regulation 22 of the Town and Country Planning (Local Planning) (England) Regulations 2012. Stage 1 hearings were held in October 2013 and the Inspector's Interim Conclusions (IC-EX/400b¹) included concern that there was not a reliable basis for identifying the level of housing need in South Worcestershire over the Plan period. The SWCs were asked to undertake further analysis in order to derive an objective assessment of housing need (OAHN) over the Plan period.
- 1.2 The Stage 1 hearings reconvened in March 2014 and the Inspector's Further Interim Conclusions recommended that the SWCs adopt an OAHN of 28,370 dwellings. This is an increase of 5,170 dwellings above the housing figure of 23,200 presented in the Submission SWDP (and as had been subject to HRA). The SWCs issued a call for sites that resulted in some 500 sites being nominated by early April 2014. Some of these sites were already known to the SWCs; others were completely new. Accordingly, the SWCs undertook an assessment process, to include the previous objection sites, in order to identify a package of additional sites able to satisfy the revised housing requirement.
- 1.3 An initial screening assessment was made of each of the sites that came forward or omission sites that have come forward during the SWDP process. This took account of factors including availability, level of flood risk, environmental constraints, proximity to a settlement and services. Each site was also considered for consistency with the SWDP spatial strategy and objectives. Those sites that satisfied this initial deliverability screening were further considered for more detailed assessments including full viability, transport modelling, infrastructure implications during June and July 2014.
- 1.4 The Habitats Regulations Assessment (Appropriate Assessment) Report (November 2012) that accompanied the South Worcestershire Development Plan (SWDP) on Submission in May 2013 was prepared in accordance with Regulation 102 of the Conservation of Habitats and Species Regulations 2010 (as amended). The Habitats Regulations Assessment (HRA) was carried out in an iterative and ongoing way with the plan making process since 2008; it was also undertaken in accordance with good practice guidance. The HRA and Local Plan progress to date may be summarised as follows:

Table 1.1: Local Plan and HRA activities and published documents to date

Local Plan Documents & Consultation	HRA Documents & Consultation
SWJCS Preferred Options Public consultation from September to October 2008	HRA Screening Report (August 2008) Public consultation from September to October 2008

¹ Available on SWDP examination webpage http://www.swdevelopmentplan.org/?page_id=5393

SWDP Preferred Options Public consultation from 26 September to 18 October 2011	HRA (Appropriate Assessment Report (September 2011) Public consultation from 26 September to 18 October 2011
Proposed Significant Changes to the 2011 Preferred Options Public consultation from 06 August to 14 September 2014	HRA (Appropriate Assessment Report (July 2012) Public consultation from 06 August to 14 September 2014
SWDP Proposed Submission Document Public Consultation form 11 January to 22 February 2013.	HRA (Appropriate Assessment Report (November 2012) Public consultation from 11 January to 22 February 2013.
SWDP Proposed Main Main Modifications Public Consultation form early October to mid November 2014.	HRA Addendum Report (this report) Public Consultation form early October to mid November 2014.

- 1.5 To ensure that the requirements of the Habitats Directive and Regulations are met it is necessary to consider the proposed Main Main Modifications through the HRA process for the SWDP. The purpose of this further HRA Addendum Report is to detail the findings of the screening of these proposed changes and considers if they significantly affect the conclusions of the HRA (AA) Report (November 2012)².

Structure of this HRA Addendum Report

- 1.6 Following this introductory Section, Section 2 provides a summary of the proposed changes to the Local Plan and the findings of the screening of the proposed Main Main Modifications. Section 3 summarises the findings of the further HRA work and sets out the next steps.

² Core Document 011: http://www.swdevelopmentplan.org/?page_id=5480

2.0 Screening of Proposed Main Main Modifications

Introduction

- 2.1 A screening of Pre-Submission policies was carried out in 2012 with the findings presented in the HRA (AA) Report (Nov 2012). The screening found that four SWDP policies (SWDP Policies 2, 3, 7 & 26) had the potential for likely significant effects on European sites.
- 2.2 The screening concluded that there is uncertainty with regard to the potential for significant effects at European sites (Bredon Hill SAC and Lyppard Grange SAC) through increased disturbance. The screening also concluded that there is uncertainty with regard to the potential for significant in combination effects on seven European sites (Lyppard Grange SAC, River Wye SAC, Severn Estuary SAC/SPA/Ramsar & Walmore Common SPA/Ramsar) as a result of changes water levels and five European sites (Severn Estuary SAC/SPA/Ramsar & Walmore Common SPA/Ramsar) as a result of changes to water quality. Based on the precautionary approach these issues were progressed through to the AA stage to be considered in more detail.
- 2.3 The AA considered the potential for the SWDP to have adverse effects on the integrity of identified European sites through increased disturbance (recreational activity) and reduced water levels and quality. The AA assessed that the likelihood of proposed development increasing the number of people using Lyppard Grange Ponds SAC is minimal - especially given the much larger areas of open space available for recreation within approximately 300 meters of the site. It was therefore concluded that the SWDP will not have adverse effects on the integrity of the Lyppard Grange Ponds SAC through increased disturbance. Considering the location and size of proposed development in relation to Bredon Hill SAC and that recreational activity is not an issue at the site, the AA concluded that the SWDP will not have adverse effects on the integrity of the SAC either alone or in combination through increased disturbance.
- 2.4 The AA assessed that the mitigation provided by SWDP policies and current regulatory processes (EA Review of Consents) would ensure that the potential impacts of proposed development on the water environment would be minimised. The AA made some recommendations to help strengthen policies and these were incorporated into the SWDP. It was concluded that the SWDP will not have adverse in combination effects on the integrity of the identified European sites through reduced water levels or water quality.

Summary Findings

- 2.5 Following the Examination Inspector's recommendation (March 2014) the SWCs are proposing an increase of 5,200 dwellings on the previously identified housing figure of 23,200 set out in the Submission SWDP. The new housing figure (28,400) addresses the Inspector's recommendations as set out in the Further Interim Conclusions that the SWCs should adopt an objectively assessed housing need of 28,400 dwellings during the life of the Plan. To meet the increased housing requirement the SWCs are proposing a number of new

site allocations as well as proposing changes to the capacity of existing allocations.

- 2.6 The proposed Main Modifications have been set out in Appendix 1 and then screened to consider if they are likely to significantly affect the findings of the previous HRA (AA) Report (November 2012). A summary of the findings are provided below.
- 2.7 The previous screening work carried out in 2012 concluded that given their location there are no environmental pathways for potential impacts arising as result of proposed site allocations alone. Given this, it is considered that the capacity & boundary changes to the existing site allocations proposed by the SWCs do not significantly affect the findings of the HRA (AA) Report (Nov 2012). This is also considered to be the case for the new site allocations proposed. Given their location there are no identified pathways for potential impacts arising as result of proposed development alone.
- 2.8 The key change to the Plan is the increased housing requirement, which has risen from 23,200 to 28,400 dwellings. As was determined through the previous HRA work in 2012, it is the overall level of growth where significant effects are more likely to occur. The increased housing requirement is not likely to result in any further significant effects that were not considered through the previous HRA work in 2012.
- 2.9 The additional site allocations proposed are not in locations that are likely to result in a significant increase in recreational activity at either Bredon Hill SAC or Lyppard Grange SAC. The finding of no adverse effect on the integrity of these sites as a result of increased disturbance is therefore still considered valid.
- 2.10 While the increased housing requirement will increase water abstraction and sewerage discharge (consented) it is considered, given the evidence set out in the Water Cycle Study Updated (2014) and the mitigation provided through SWDP policies, regulatory processes (EA Review of Consents) and available at the project level will ensure that there are no adverse in combination effects on European sites as a result of reduced water levels and quality. The finding of no adverse effect on the integrity of the identified European sites as a result of changes to water levels sites (Lyppard Grange SAC, River Wye SAC, Severn Estuary SAC/SPA/Ramsar & Walmore Common SPA/Ramsar) and quality (Severn Estuary SAC/SPA/Ramsar & Walmore Common SPA/Ramsar) is still therefore considered valid. Mitigation provided through SWDP Policies includes the following:

Water Resources

- Policy SWDP 21 (Design) requires any development to contribute towards maximising opportunities for exceeding national timetables for water conservation/ efficiency by virtue of their design, layout and use of materials.
- Policy SWDP 30 (Water Resources Efficiency and Treatment) requires proposals to demonstrate that there are, or will be, adequate water supply in place to serve the whole development and does not permit

schemes that would result in an unacceptable risk to the quantity of groundwater or surface water. It also supports development proposals incorporating grey water recycling and encourages the retrofitting of water efficiency measures. The policy requires that for housing proposals the daily non-recycled water use per dwelling must not exceed 105 litres per day per dwelling up to the 1st April 2016. After this date the required target will be 90 litres per day. For business / commercial proposals up to 1st April 2016, the water use must be such as to satisfy the BREEAM “very good” standard. Beyond 1st April 2016 the BREEAM “excellent” standard must be achieved.

Water Quality

- Policy SWDP 28 (Management of Flood Risk) requires development to not adversely affect the natural watercourse system which provides the drainage of land.
- Policy SWDP 29 (Sustainable Drainage Systems) sets out requirements for the incorporation of Sustainable Drainage Systems and the sustainable management of surface water. Proposals are required to demonstrate within a water management statement that site drainage and runoff will be managed in a sustainable and co-ordinated way mimicking the natural drainage network.
- Policy SWDP 31 (Pollution) requires development proposals be designed in order to avoid any significant adverse impacts, including cumulative ones, on water bodies.

2.11 The screening concludes that the proposed Main Modifications do not significantly affect the findings of the HRA (AA) Report published in November 2012.

3.0 Summary and Next Steps

- 3.1 The SWCs have proposed a number of Proposed Main Modifications to the SWDP Plan as a result of Inspector's Interim and Further Interim Conclusions, the latter which includes the recommended increase in the housing requirement. The changes have been considered to determine if they are likely to have significant effects on European sites and therefore affect the findings of the HRA (AA) Report published in November 2012.³
- 3.2 A screening of the key changes concluded that the proposed Main Modifications do not significantly affect the findings of the previous HRA work and that the conclusion that the SWDP will not have adverse effects on the integrity of European sites either alone or in combination is still valid. The SWCs have been undertaking HRA iteratively since 2008, with HRA recommendations and consultation advice from Natural England influencing the development of the Plan and the HRA process.
- 3.3 This Addendum Report will published alongside the Proposed Main Modifications on public consultation from early October to mid November 2014. Any further changes to the Plan that arise as a result of the consultation or any further hearing sessions should be subject to further screening to consider their significance with regard to the HRA.

Appendix I: Screening of Proposed Main Modifications

Policy	Summary of Main Modifications	Screening of Main Modifications	Potential for LSE?
SWDP 3	<p>Reflects the revised total projected housing need figure for the plan period, a revision from the previous figure of 23,200 to the newly assessed need of 28,400 new dwellings.</p> <p>Provides further detail on the amended distribution of housing targets across the plan area, which is also broken down into market housing and affordable housing. The new provision totals 28,400 new dwellings across the areas as summarised below:</p> <ul style="list-style-type: none"> ▪ Wider Worcester Area (WWA): Worcester City – 6,750 of which 1,500 is Affordable Housing (AH) ▪ WWA: Malvern Hills & Wychavon – 5,450 of which 2,250 is AH ▪ Malvern Hills (Excluding WWA) – 5,900 of which 1,800 is AH ▪ Wychavon (Excluding WWA) – 10,300 of which 3,350 is AH 	<p>The key change to the Plan is the increased housing requirement, which has risen from 23,200 to 28,400 dwellings. As set out against the site allocation policies below, the location of the proposed development is not considered likely to result in significant effects on identified European sites. As was determined through the previous HRA work in 2012, it is the overall level of growth where significant effects are more likely to occur.</p> <p>The screening previously found that the overall level of growth had the potential for significant effects alone and in combination on Bredon Hill SAC through increased disturbance. It also found that there was the potential for significant effects on Lyppard Grange Ponds SAC alone through increased disturbance and in combination through reduced water levels and quality. Potential significant in combination effects on Downton Gorge SAC, River Wye SAC, Severn Estuary SAC/SPA/Ramsar and Walmore Common SAC/SPA/Ramsar through reduce water levels and quality were also identified.</p>	No

		<p>The AA considered these issues in further detail and found that there is unlikely to be adverse effects on the integrity of the Bredon Hill SAC and Lyppard Grange SAC as a result of increased disturbance given the location of proposed development and sensitivity of the sites.</p> <p>The AA assessed that the mitigation provided by SWDP policies and current regulatory processes (EA Review of Consents) would ensure that the potential impacts of proposed development on the water environment would be minimised. The AA made some recommendations to help strengthen policies and these were incorporated into the SWDP. It was concluded that the SWDP will not have adverse in combination effects on the integrity of the identified European sites through reduced water levels or water quality.</p> <p>It is considered that the increase of 5,200 dwellings during the life of the plan does not significantly affect the findings of the previous HRA (AA) Report (Nov 2012).</p> <p>The additional site allocations proposed are not in locations that are likely to result in a significant increase in recreational activity at Bredon Hill SAC and Lyppard Grange SAC. The mitigation provided through SWDP policies, regulatory processes (EA Review of Consents) and available at the project level will ensure</p>	
--	--	---	--

		that there are no adverse in combination effects on European sites as a result of reduced water levels and quality.	
SWDP 43	<p>Proposed changes to existing allocations in the Plan:</p> <p>SWDP43/2 Gregory's Bank industrial estate from 140 to 164 dwellings SWDP43/4 Old Northwick Farm 40 to 45 dwellings SWDP43/7 Sansome Walk Swimming Pool 40 to 33 dwellings SWDP43/9 Old Brewery Service Station, Barbourne Road from 6 to 12 dwellings SWDP43/14 Former Ronkswood Hospital from 200 to 181 dwellings</p> <p>The following new site allocations are being proposed:</p> <p>SWDP43a 73 - 77 Bromwich Road 11 dwellings SWDP43b Martley Road 18 dwellings SWDP43c Malvern Gate, Bromwich Road 45 dwellings SWDP43d Land at Ambrose Close 24 dwellings SWDP43e Land at Hopton Street 30 dwellings SWDP43f County Council Offices, Sherwood Road 15 dwellings SWDP43g County Council Offices, Bilford Road 15 dwellings SWDP43h Laugherne Garage, Bransford Road 10 dwellings SWDP43i Crown Packaging Site, Main site, Perry Wood Walk 200 dwellings SWDP43j Crown Packaging Site, Woodside Offices and Car Park, Perry Wood Walk 40 dwellings SWDP43k Land off Bromyard Terrace 30 dwellings SWDP43l Battenhall Road (Former NALGO Sports Ground) 20 dwellings SWDP43m Tolladine Golf Course (Club House & Putting Green) 9 dwellings SWDP43n Earls Court Farm (Community Land) 13 dwellings SWDP43o Royal Mail Sorting Office, Westbury Street 20 dwellings SWDP43p Langdale Drive 10 dwellings SWDP43q Zig Zag site, St John's 10 dwellings SWDP43r The Bridge Inn, Lowesmoor Terrace 15 dwellings SWDP43s Rose Avenue 8 dwellings SWDP43t Coach Park adjacent to Barley Crescent (4-4a, Tolladine Road) 7 dwellings SWDP43u Royal Worcester Porcelain site 8 dwellings SWDP43v Brickfields Road 10 dwellings</p>	<p>The changes to the existing allocations are not considered to significantly affect the findings of the HRA (AA) Report (Nov 2012). The previous screening work concluded that given their location there are no environmental pathways for potential impacts arising as result of proposed development alone.</p> <p>This is also considered to be the case for the new site allocations proposed. Given their location there are no identified pathways for potential impacts arising as result of proposed development alone.</p> <p>The potential in combination effects of the additional site allocations and increased level of growth are considered against SWDP 43.</p>	No

	SWDP43w 23-24 Foregate Street 10 dwellings SWDP43x Christian Meeting Room, Diglis Lane 17 dwellings SWDP43y Land at White Ladies Close 37 dwellings SWDP43z East Bank Drive (Phase 3) 38 dwellings		
SWDP 45	Proposed changes to existing allocations in the Plan: Broomhall Community from 2450 to 1739 Temple Laughern from 975 to 1805	Please refer to screening of Policy SWDP 43 above.	No
SWDP 46	The following new site allocation is being proposed: SWDP46x Land off Defford Rd, Pershore 21 dwellings	Please refer to screening of Policy SWDP 43 above.	No
SWDP 47	Proposed changes to existing allocations in the Plan: SWDP47/1 Land to the North Of Pershore from 600 to 695 dwellings	Please refer to screening of Policy SWDP 43 above.	No
SWDP 49	Proposed changes to existing allocations in the Plan: B SWDP49/2 Stonebridge Cross Business Park amended to C SWDP49/3 Stonebridge Cross Business Park The following new site allocation is being proposed: SWDP49/ X Yew Tree Hill 765 dwellings	Please refer to screening of Policy SWDP 43 above.	No
SWDP 50	Proposed changes to existing allocations in the Plan: SWDP50/1 - deleted The following new site allocation is being proposed: SWDP50x Land at Aldington Lodge, Offenham Road, Evesham 60 dwellings	Please refer to screening of Policy SWDP 43 above.	No
SWDP 52	Proposed changes to existing allocations in the Plan:	Please refer to screening of Policy SWDP 43 above.	No

	<p>SWDP52/4 Homestead, Halfkey from 6 to 5 dwellings</p> <p>The following new site allocations are being proposed:</p> <p>SWDP52i Land at Lower Howsell Road (former allotments) 81 dwellings SWDP52d Land at Mill Lane, Poolbrook 62 dwellings SWDP52f Pickersleigh Grove (part of Hayslan Fields) 44 dwellings SWDP52m Former Railway Sidings, Peachfield Road 20 dwellings SWDP52s Victoria Road Car Park 21 dwellings SWDP52w Land off Brook Farm Drive, Poolbrook 77 dwellings SWDP52y Broadlands Drive, Malvern 33 dwellings</p>		
SWDP 53	Policy wording has been amended to reflect the uplift in housing provisions from 250 to 300	Please refer to screening of Policy SWDP 43 above.	No
SWDP 56	Policy wording has been amended to reflect the uplift in housing provisions from 700 to 800	Please refer to screening of Policy SWDP 43 above.	No
SWDP 57	<p>Proposed changes to existing allocations in the Plan:</p> <p>SWDP57/1 Land opposite Morningside from 30 to 43 dwellings</p> <p>The following new site allocations are being proposed:</p> <p>SWDP57a Land at Mistletoe Row, Oldwood Road 44 dwellings SWDP57c Land south of the Oaklands, Tenbury 35 dwellings</p>	Please refer to screening of Policy SWDP 43 above.	No
SWDP 58	<p>The following new site allocations are being proposed:</p> <p>SWDP58c Upton Marina (Previously Upton-upon-Severn, Holly Green / Ryall and Tunnel Hill Area) 70 dwellings SWDP58d Land at Welland Road (Tunnel Hill) 43 dwellings</p>	Please refer to screening of Policy SWDP 43 above.	No
SWDP 59	<p>Proposed changes to existing allocations in the Plan:</p> <p>SWDP59/2 Land west of Apostle Oak Cottage, Abberley Common from 10 to 14</p>	Please refer to screening of Policy SWDP 43 above.	No

<p> dwellings SWDP59/4 Land adjacent to the Primary School, Great Witley from 23 to 27 dwellings SWDP59/7 Allocation deleted as site no longer available SWDP59/8 Land adjacent to the Lawns including Bight Farm (combined / extended sites 6.4ha), Kempsey 190 dwellings SWDP59/9 Land to the west of Bell Lane / south of Martley Road, Lower Broadheath from 40 to 48 dwellings SWDP59/11 Strand Cottages, Peachley Lane, Lower Broadheath 6 dwellings – boundary extension SWDP59/14 Land off Banks Road, Badsey from 30 to 39 dwellings SWDP59/17 Land to the east of Kingsdale Court, Broadway from 12 to 13 dwellings SWDP59/25 The Racks (east), Ombersley from 14 to 34 dwellings </p> <p>The following new site allocations are being proposed:</p> <p> SWDP59a Land at Walshes Farm, Clows Top Road, Abberley Common 15 dwellings SWDP59b Land at Church House Farm, Clifton upon Teme 17 dwellings SWDP59d Land at Braithwaites Yard, Hallow 9 dwellings SWDP59zk Land at the Royal Oak Public House, Hallow 8 dwellings SWDP59zzi Land South of Greenhill Lane, Hallow 30 dwellings SWDP59e 123a Main Road, Kempsey 10 dwellings SWDP59f Land north of Brookend Lane (adjacent to the Limes), Kempsey 120 dwellings SWDP59* Land adjacent to Henwick Mill House, Martley Road, Lower Broadheath 42 dwellings SWDP59i Land north of Marlbank Road (southern portion), Welland 24 dwellings SWDP59k Land adjacent to Primary School, Martley 14 dwellings SWDP59l Land at Lawn Farm, Drake Street, Welland 50 dwellings SWDP59zl Land between Old Post Office and Church Farm, Drake Street, Welland 30 dwellings SWDP59x (WY003) Land opposite Horsebridge Avenue, Badsey 36 dwellings SWDP59 x (WY008) Land between Leasowes Road and Laurels Road, Offenham 50 dwellings SWDP59 x (WY009) Spencer Commercial Services Ltd, Evesham Road, Offenham 9 dwellings </p>		
---	--	--

SWDP 60	<p>Proposed changes to existing allocations in the Plan:</p> <p>SWDP60/5 Former Allotments, Winsmore 35 dwellings SWDP60/18 Land east of Boot Inn on Radford Rd (& 39-07) Flyford Flavell from 12 to 16 dwellings SWDP60/19 Land adjacent to Crest Hill, Harvington from 5 to 9 dwellings SWDP60/24 Land off Main Street, behind Nos 43 to 57, Sedgeberrow from 12 to 20 dwellings SWDP60/27 Land at Shine Hill, adjacent to The Lanterns, South Littleton from 6 to 30 dwellings</p> <p>The following new site allocations are being proposed:</p> <p>SWDP60a Land at Stoney Lea, Broadwas 8 dwellings SWDP60b Land adjacent to the Crown Public House, Powick & Collett's Green 45 dwellings SWDP60c Land south of Sparrowhall Lane, Powick & Collett's Green 39 dwellings SWDP60d Land at Kiln Lane, Leigh Sinton 53 dwellings SWDP60t Land off Bransford Road, Rushwick 50 dwellings SWDP60 x Land between Pentalow and Berrycroft, Blacksmiths Lane, Cropthorne 8 dwellings</p>	Please refer to screening of Policy SWDP 43 above.	No
SWDP 61	<p>Proposed changes to existing allocations in the Plan:</p> <p>SWDP61/1 East of Chapel Meadow, Alfrick from 13 to 14 dwellings SWDP61/2 Land west of Main Street, Bishampton from 6 to 12 dwellings</p> <p>The following new site allocations are being proposed:</p> <p>SWDPX Land off Pearl Lane (relates to Stourport), Astley Cross 62 dwellings SWDP61x Land off Low Road, Church Lench 6 dwellings SWDP61x Land off Hoden Lane, Cleeve Prior 6 dwellings SWDP61x Land east of Church Lane, Crossway Green 5 dwellings</p>	Please refer to screening of Policy SWDP 43 above.	No
SWDP 17	Amendments to reflect the latest evidence and findings of the 2014 GTAA. The updated findings are summarised as follows:	As was the case previously, no specific locations for development are provided.	No

	<ul style="list-style-type: none"> ▪ an overall shortfall of 5 permanent Traveller pitches across south Worcestershire in the period to 2018/19 ▪ no overall additional need for Travelling Showpeople for plots across south Worcestershire in the period to 2018/19 ▪ a number of vacant pitches are identified (particularly in Wychavon) and opportunities for the intensification or limited expansion of a number of existing sites in Malvern Hills and Wychavon ▪ the recommendation that the south Worcestershire authorities assess the suitability of proposals and planning applications for smaller sites as they arise against criteria-based planning policies ▪ the recommendation that provision be made for a minimum of five transit pitches and suggests that the south Worcestershire authorities liaise with a view to providing a shared facility for dealing with future unauthorised encampments ▪ the indicated demand from Travellers for a mixture of Council / Registered Social Landlord (RSL) - managed sites and private sites ▪ the likely longer-term requirement for pitches and plots, covering the period 2019/20 - 2033/34 presented in Table 6 	<p>Any proposal will be assessed as to whether the site has any adverse impact on landscape or local nature conservation designations, ecology and biodiversity that cannot be mitigated. No likely significant effects.</p>
