Following consultation on the Draft Charging Schedule (DCS) in April/May 2016, a statement of modifications schedule has been produced to accompany the CIL examination submission material. The statement of modifications lists the proposed changes the SWC are seeking to make to the CIL charging schedule as a result of representations received during the DCS consultation period (schedule 1), and any other minor amendments that the SWC have identified in reviewing the draft documentation prior to submission (schedule 2).

The South Worcestershire Councils are therefore now inviting representations on the statement of modifications, prior to undertaking the CIL examination hearing sessions.

Please submit your representation by using this form and answering the questions below.

**Proposed Modification Number:** PM 5

**(The PM reference numbers are located on the statement of modifications schedules)**

**Question 1: Do you agree with the proposed modification? Please continue on a separate sheet if you require further pages.**

<b>Yes</b>	<b>X</b>
<b>No</b>	

**Comment:**

WP, WMP and HWFRS welcome and support the proposed inclusion of the definition of emergency services infrastructure within Appendix D – Glossary of the Charging Schedule.

This resolves the representations submitted by WP, WMP and HWFRS in response to Question 6 of the Draft Charging Schedule public consultation, which took place from 01 April to 16 May 2016.

Including the new definition within the Glossary ensures consistency between the Charging Schedule, the site allocation policies in the South Worcestershire Development Plan and the Infrastructure Delivery Plan, which are clear and unequivocal that emergency services infrastructure is required to mitigate the impact of these planned developments. The ‘*Officer Response*’ to our previous representations confirming this is welcome.

It should also be noted that the various infrastructure types specified in the proposed definition have been tested and endorsed by the Secretary of State and the Planning Inspectorate as complying with the CIL Regulations via a large number of public inquiries. A document (**Appendix 1**) summarising these decisions is enclosed with this response form for information.

Responses to this consultation should be sent to the e-mail contact address and/or postal address shown at the top of this form. Please ensure all responses are marked for the attention of the South Worcestershire Development Plan Team.

**Representations must be received by 5:00pm on 22 August 2016. Any representations made after that date and time will be considered “Not Duly Made” and will not be taken into account.**

Thank you for completing the form.

## EXAMPLES OF APPEAL DECISIONS RELATING TO POLICE CONTRIBUTIONS

**Appeal Ref. APP/K2420/W/15/3004910**

**Appeal Decision dated 4 May 2016**

**Land off Sherborne Road, Burbage, Leicestershire LE10 2BE**

**The development proposed is residential development and associated infrastructure (73 dwellings).**

**Application: 14/00475/OUT Hinckley and Bosworth Borough Council**

44. *Leicestershire Police (LP) has demonstrated adequately that the sums requested would be spent on a variety of essential equipment and services, the need for which would arise directly from the new households occupying the proposed development. It would be necessary, therefore, in order to provide on-site and off-site infrastructure and facilities to serve the development commensurate with its scale and nature consistent with LP Policy IMP1. The planning contribution would also enable the proposed development to comply with the Framework's core planning principle of supporting local strategies to improve health, social and cultural well being and delivering sufficient community facilities and services to meet local needs.*

45. *In respect of compliance with CIL Regulation 123(3) the proposed spending has been apportioned to individual projects and procurement, such as property adaptation and a contribution towards a vehicle, in order to ensure no need for the pooling of contributions. In addition a clause of the undertaking which, in requiring written confirmation prior to payment that it would only be spent where there were no more than four other contributions, would provide a legal mechanism for ensuring full compliance with Reg. 123(3).*

46. *Evidence was submitted in the form of two maps with types of criminal incidents plotted on them. The first of these shows that there were several burglaries and thefts in the housing area adjacent to the appeal site during the year up to July 2014. The second map covers a larger area, this time in Blaby, and indicates a steady rate of incidents, mainly forms of stealing, in all types of residential area. I have no reason to believe that levels of crime differ significantly between Hinckley/Burbage and Blaby.*

47. *I consider this to be a no less realistic and robust method of demonstrating the criminal incidents likely to arise in a specific area than the analysis of population data which is normally used to calculate the future demand for school places. The evidence gives credence to the additional calls and demands on the police service predicted by LP.*

51. *My overall conclusion on planning contributions is that those requested by LP and by LCC for the civic amenity site would be necessary to make the development acceptable in planning terms and would meet the other tests set out in the Framework. In those respects the submitted planning obligation carries significant weight. The contribution sought for Burbage library would not.*

Appeal Ref. APP/G2435/A/14/2228806

Secretary of State Decision dated 15 February 2016

Money Hill, Land North of Wood Street, Ashby-de-la-Zouch, Leicestershire

The development proposed is 605 residential dwellings including a 60 unit extra care centre (C2), a new primary school (D1), a new health centre (D1), a new nursery school (D1), a new community hall (D1), new neighbourhood retail use (A1), new public open space and vehicular access from the A511 and Woodcock Way.

*63. The contribution of £219,029 towards Police infrastructure is not related to requirements of development plan policies. The figure has been arrived at following a close and careful analysis of the current levels of policing demand and deployment in Ashby. The proposed development, in terms of population increase, would have a quantifiable and demonstrable effect on the ability of the Police to carry out their statutory duties in the town. LP has not sought any contribution to some aspects of policing, such as firearms and forensics, but only for those aspects where there is no additional capacity. The contribution is thus fairly and reasonably related in scale and kind to the development and is directly related to that development. The contribution is necessary because the new housing that would be created would place a demonstrable additional demand on Police resources in Ashby. The financial contribution to Police operations thus satisfies Regulation 122 of the Community Infrastructure Levy Regulations 2010 and a provision of the Undertaking would ensure that the contribution also satisfies Regulation 123 of the Community Infrastructure Levy Regulations 2010.*

*19. Planning obligation. The necessity for contributions towards affordable housing, on site open space, policing, healthcare, travel plan, transport, education and civic amenity have been justified by comprehensive evidence from the local and County Council, and the Police Authority. There is no dispute that the provisions of the legal agreement would meet the Council's policy requirements, the tests set out in paragraph 204 of the National Planning Policy Framework (NPPF) and the CIL Regulations 122 and 123 relating to pooled contributions. I am satisfied that this is the case and am taking them into account.*

Appeal Decision dated 14 January 2016

Land at The Asps, bound by Europa Way (A452) to the east and Banbury Road (A425) to the west

The development proposed is described on the application form as residential development (use class C3) for up to 900 dwellings, a primary school (use class D1), a local centre (use classes A1 to A5) and D1) and a Park and Ride facility for up to 500 spaces (sui generis) with access from Europa Way and Banbury Road, areas of public open space, landscaping enhancements and archaeological mitigation.

*32. The Secretary of State has had regard to the matters raised by the Inspector at IR13.1 – 13.5 and agrees with the Inspector’s reasoning and conclusions on the two Unilateral Undertakings at IR14.137-14.161. In making his decision on this case, the Secretary of State has taken into account the provisions in the Unilateral Undertakings that do accord with Paragraph 204 of the Framework and do meet the tests in the CIL Regulations 2010 as amended.*

*Condition 7 - An area of land measuring no less than 0.5 hectare shall be reserved for a local centre. This area of land should broadly be in the location identified on drawing No EDP 1871/116C. Any reserved matters proposal for development on this land must provide a mix of A1 and A2 and A3 and A4 and D1 floorspace, and a police post and associated off-street servicing and parking facilities, all of which shall be delivered in accordance with the phasing plan.*

*11.5 Warwickshire Police and West Mercia Police: They requested a S106 contribution to provide police infrastructure necessary to enable the direct delivery of policing services to the site. No objections were received from either the Council or the appellant and so it was assumed that HE request met the relevant statutory tests. It was a surprise, therefore, to see on the Statement of CIL compliance, that the request was considered not to be compliant, notwithstanding that the Obligation did include the requested provision. The correspondence sets out why, in their view, the contribution is CIL compliant and is supported by four Appendices.*

*13.18 Police: the obligation secures the provision of a building for use as a police office, of at least 200 square metres gross internal floor area (together with service connections and external parking) to be located within the local centre that forms part of the development scheme. In addition, a contribution of £187,991 is secured, payable to the Council to fund the provision, fitting out and equipping of the police office.*

*14.154 Police: As set out in the CIL Compliance Schedule, the appellant is not satisfied that the arrangement is CIL compliant, with the Council being of the view that insufficient evidence was available to come to an informed view on the matter. However, no evidence was before the Inquiry to support those concerns.*

*14.155 Having had sight of the Schedule, Warwickshire Police and West Mercia Police submitted further correspondence on the matter, dated 10 April 2015. They demonstrate that the arrangement*

*has been arrived at after careful analysis of the current and planned levels of policing in the area. With reference to existing local deployment reflecting actual policing demands and local crime patterns, it is confirmed that five additional staff would be required to serve the development proposed. Policing of the area is delivered currently from three separate premises (in Warwick, Leamington and Leek Wooton) all of which are already maintained to capacity. I am in no doubt therefore, that a new police office would need to be provided on the site, and fitted out, in order to accommodate the additional staff. I consider the arrangement to be necessary to make the development acceptable, it is directly related to the development proposed and to mitigating the impacts that it would generate, and it is fairly and reasonably related in scale and kind to the development. The arrangement therefore meets the relevant tests. Moreover, as a discrete project to which no more than five developments would contribute, I have no reason to suppose, on the basis of the information before me, that there would be any conflict with CIL Regulation 123.*

Appeal Ref. APP/T3725/A/14/2229398

Appeal Decision dated 14 January 2016

Land South of Gallows Hill / West of Europa Way, Heathcote, Warwick

The development proposed is a residential development up to a maximum of 450 dwellings; provision of two points of access (one from Europa Way and one from Gallows Hill); comprehensive green infrastructure and open spaces including potential children's play space; potential footpaths and cycleways; foul and surface water drainage infrastructure and ground modelling.

33. Having examined the completed and signed S106 Planning Agreement and considered the commentary and views at IR349 - 356 and the Inspector's assessment at IR462 - 467, the Secretary of State concludes that the obligations in the Agreement accord with Paragraph 204 of the Framework and meet the tests in the CIL Regulations 2010 as amended.

353. The Council has submitted a summary table of S106 contributions (Document AD13) to demonstrate that the Regulation 123 limit of a maximum of 5 contributions to infrastructure would not be exceeded. The Council has also submitted a CIL Regulations Compliance Statement (Document AD14) which sets out the justification for each obligation, matters of agreement and matters of dispute. Appendix D explains that the monitoring fee is necessary as the large scale housing site with multiple contributions requires additional monitoring work. It sets out how the sum has been calculated including the activities to be carried out and the hourly rate of the officer.

354. Mr T Jones represents Warks and West Mercia Police Authority. He appeared at the Inquiry in a round table session to further provide evidence in support of the need for the financial contribution for police services that is included in the submitted S106 planning obligation agreement. There is supporting written evidence at OIP7, OIP22, and OIP23. The contribution is sought to support police services for the local area to accommodate the rising need generated by this new development. Appeal decisions by the Secretary of State have been submitted in support of such contributions APP/X2410/A/12/2173673 (Document OIP22) and APP/X2410/A/13/2196928/APP/X2410/A/13/2196929 (Document OIP23). In each case the Secretary of State agreed with the Inspector that the contributions were compliant with Regulation 122 of the CIL Regulations. The Inspector's Report for the first case noted that contributions had previously been supported in some appeals and not in others.

462. The S106 planning obligation agreement between the LPA and the Appellant and landowners covers all the matters referred to as reasons for refusal [349-352]]. However the Appellant has queried whether all of the obligations satisfy the requirements of the Community Infrastructure Levy Regulations 2010 (as amended) and the Obligation Agreement itself provides that if the 'Planning Inspector or Secretary of State in the Decision Letter' concludes that any of the planning obligations or the monitoring fee or any part of the obligation are incompatible with Regulations 122 or 123 of the Community Infrastructure Levy Regulations 2010 (as amended) then that shall cease to have effect. In

*particular the Appellant queries the legality of the monitoring fee and the contributions to police and health services. The LPA has provided a CIL compliance statement [353].*

*464. The contributions for police services are similar to those which the Secretary of State has previously endorsed as compliant with Regulation 122 [354]. I consider that the CIL compliance statement shows that they are also compliant with Regulation 123 [353].*

*69. The contribution to Leicestershire Police (LP) has been justified following a close and careful analysis of the current levels of policing demand and deployment in the beat area. The financial contribution would be spent on start-up equipment, vehicles, additional radio call capacity, PND additions, additional call handling, ANPR, Mobile CCTV, additional premises and hub equipment. No part of the LP contribution provides for funding towards any infrastructure project that would offend the restriction on pooling. In my view, the LP contribution is fully compliant with Regulations 122 and 123 of the CIL Regulations.*

*2. Refusal Reason 2 related to the failure in the appeal application to make any commitment to developer contributions. As part of the appeal submissions two unilateral undertakings have been submitted. I consider that these two undertakings are compliant with paragraph 204 of the National Planning Policy Framework (the Framework) and Regulation 122 of the CIL Regulations 2010. In arriving at this view I have taken account of the replies from the Council and the Police Authority to the Planning Inspectorate's letter of 5 May 2015 relating to 'pooled' contributions. The first unilateral undertaking, dated 22 January 2015, makes provision for various contributions towards health services, indoor activity services, libraries, museums, outdoor sports, open space, children's services and policing. As the contribution to policing is in line with the amount per dwelling specified in the adopted Developer Contributions Calculation increasing this amount would not be justified. The second unilateral undertaking, dated 12 March 2015, will ensure that at reserved matters stage a Section 106 agreement is drawn up to secure 35% affordable housing. Consequently I believe that Refusal Reason 2 has now been addressed.*

*16. The proposed development would increase demands on the Market Overton Doctor's Practice. The building is not large enough to cater for the additional patients that it has been calculated would live in the area as a result of planned new housing development including the appeal site. Similarly, the police service delivers its service locally from premises at Oakham. This facility is at capacity and the new development would generate a need for additional space, equipment, information handling and communications. A financial contribution is therefore necessary to mitigate the effect of the development by expanding the Doctor's Surgery and police service provision.*

*82. A completed planning obligation, in the form of an agreement made under Section 106 of the Town and Country, was submitted at the inquiry (Document OW15). I have considered the submitted planning obligation against the tests set out at paragraph 204 of NPPF.*

*83. In general terms, the agreement establishes a commitment to provide 30% affordable dwellings, support for sustainable transport, the provision of open space for public use, and financial contributions for education, the county council library service and police infrastructure. The terms of the offered agreement were discussed, and whether the contributions put forward were directly related to the development being proposed. Nothing was said at the inquiry to indicate that what is being offered is unreasonable, disproportionate, or likely to be covered by other sources of financial support or revenue.*

*84. I am satisfied that, in the light of the matters discussed at the inquiry, and taking into account the written submissions relating particularly to the police contribution (document LP1), all the offered contributions and undertakings are necessary to make the development acceptable in planning terms, are directly related to the development and reasonably related in scale and kind to the development.*

Support for infrastructure requirements is provided in saved LP Policy OS3 and within the County Council's SPG11. ### *Policing*

*39. A police contribution of £13,756 is included in the planning obligation. Detailed evidence in support of this level of contribution has been submitted by the Police and Crime Commissioner. It is clear that the increase in the local population from up to 60 dwellings on the appeal site would place additional demands on the police. Contributions are not sought across the board. The representations identify those areas where there is spare capacity and they have not been taken into account in calculating the overall level of contribution. A need has been identified in the following areas: start-up equipment, vehicles, radio call capacity, database capacity, call-handling, automatic number plate recognition cameras, mobile CCTV, premises, and hub equipment. Details are provided of the purpose to which the funding would be put, and, in the case of each area where a need has been identified, the level of contribution has been calculated in relation to the size of the appeal proposal, even if this means that some expenditure is required from the police budget. The policing contribution is necessary to make the development acceptable in planning terms, and it also complies with the other statutory tests.*

### **8. The Case for the Police and Crime Commissioner for Leicestershire**

8.1 *Policing is a service that is always available and responds to demand on an 'equal access' basis; the level and efficiency of that response depends on the facilities available. Calls and deployments are monitored and give an indication of the level of services delivered to the 45,400 households in the Borough or the 6393 houses in Burbage. In 2011 there were 83,315 calls from the Borough, 9,386 of which required emergency attendance and 5,314 entailing some 'follow up'. In Burbage there were 11,664 calls, 314 emergencies and 744 attendances; last year there were 419 recorded incidents. Those incidents largely entail burglary, car related crime and theft and there are geographical concentrations at the commercial units around Hinckley Island and the town centre. Some 372 incidents of anti-social behaviour are recorded in Burbage and regular patrolling and local community contact maintained by the Neighbourhood Policing team, located at Hinckley Local Policing Unit.*

8.2 *The integrated nature of policing means that many different operational units are involved in responding to recorded incidents. Staff at the Local Police Unit, the hub at Braunston, the Basic Command Unit at Loughborough, the Force HQ at Enderby, tactical support, road safety, communications and regional crime can all be involved. Some 270 staff are employed to deliver policing in the Borough and about 80% of their time is devoted to such activities. The minimum number of staff is deployed to meet existing levels of demand, which means that there is little additional capacity to extend staffing to cover additional development. The aim is to deploy additional staffing and additional infrastructure to cover the demand from new development at the same level as the policing delivered to existing households. Hence, additional development would generate a requirement for additional staff and additional personal equipment (workstations, radios, protective clothing, uniforms and bespoke training), police vehicles of varying types and functions, radio cover (additional base stations and investment in hardware, signal strengthening and re direction), national database availability and interrogation, control room telephony, CCTV technologies, mobile units, 'beat drop in hubs', premises and the like. Yet, the prognosis is that 'It is sensible to assume that most of the capital requirements incurred by growth will not be covered by existing mainstream central and local funding'. Hence, the necessity to seek developer contributions to ensure that existing levels of service can be maintained as growth continues.*

## EXAMPLES OF APPEAL DECISIONS RELATING TO POLICE CONTRIBUTIONS

---

8.3 *The proposed development is expected to increase the overnight population of this settlement by at least 307 people and a net addition of 133 new houses must bring additional policing demands. Extrapolating from existing empirical data indicates that the scheme would generate annual additions of some 239 calls and responses, 28 emergency events, 16 non-emergency events, 9 additional recorded crimes and 8 recorded anti-social behaviour incidents. In turn those events would require additional vehicle use, more radio calls, greater use of the PND systems to process and store crime records and intelligence, further deployment of mobile CCTV technologies and additional access for beat staff in a local Hub, not to mention consequences for support and HQ staff.*

8.4 *The Framework supports the provision of the facilities and services needed in a community. This is one of the 'core principles' and SPDs are indicated to be an appropriate means to assist applicants in understanding the obligations that proposals might generate. The Framework advocates the creation of healthy and inclusive environments where crime and disorder and the fear of crime do not undermine the quality of life. Policy IMP1 of the Local Plan reflects that advice and provides an over-arching justification for the contributions sought. And, the Leicestershire County Council Statement of Requirements sets out the provisions that should be made towards the need for additional policing that might be due to new development.*

8.5 *The contribution requested amounts to £44,711 to mitigate the additional impacts estimated to accrue directly from the proposed development. These contributions are required to upgrade the capacity of existing infrastructure, which would not otherwise be sufficient to meet the likely demand from the scheme. It is anticipated that staff salaries and day to day routine additional costs would be met by rate revenues. A programme to procure the additional facilities required would be agreed as a clause in a legal agreement. The contributions sought would be directly related in scale and kind to the development, so that the completion of some infrastructures would require funding from elsewhere. But, the contribution would be used wholly to meet the direct impacts of this development and wholly in delivering the policing to it. On the basis of advice, the level of contributions sought are not based on a formula but derived solely from the direct impact of the scheme on policing. This has elicited support at appeal. A detailed explanation of the methods used to calculate each element of the total contribution is offered together with the justification for it derived from the advice in the Framework. It is shown that the contributions sought are directly related to the development, fairly and reasonably related in scale and kind to the scheme and necessary to make the development acceptable in planning terms. There would thus be CIL compliant.*

31. *Returning to the unilateral undertaking, I have already mentioned obligations relating to measures to promote more sustainable modes of transport, which are necessary to make the development acceptable. The undertaking also includes provision for contributions towards library facilities and police services and, given the justifications provided, I find that these are also necessary to make the development acceptable.*

32. *Taking account also of the information provided to explain how the various contributions are calculated and how they would be used, I find that all the obligations would be directly related to the development and fairly and reasonably related to it in scale and kind. The tests in Regulation 122 of the Community Infrastructure Levy Regulations 2010 and in the Framework are therefore satisfied and thus I have had regard to all the obligations.*

34. *The contribution to Leicestershire Police has been justified based on crime statistics within the area and demands that would arise from the development. It would fund equipment and infrastructure to support additional personnel within the beat area, not the staffing itself. In terms of civic amenity contributions, the nearest household waste and recycling disposal site is at Barwell. Figures were provided indicating that the site is at or above capacity at peak periods such as Bank Holiday weekends. The contributions would assist in the acquisition of an additional storage container to cater for the waste from this and other new housing developments in the area.*

35. *The Council considers that the police and civic amenity contributions do not meet the tests within Regulation 122 of the Community Infrastructure Regulations (CIL) but does not provide much evidence to support its position. In contrast Leicestershire Police and the County Council have provided significant justification for the contributions, including reference to a number of recent appeal decisions where such contributions have been supported by Inspectors and the Secretary of State.*

36. *The contributions would accord with Policies IMP1, REC2 and REC3 of the LP and the Council's Play and Open Space Guide SPD. In addition the contributions to the County Council are supported by the Statement of Requirements for Developer Contributions in Leicestershire.*

37. *The obligations within the S106 agreements are necessary to make the development acceptable in planning terms; directly related to the development; and fairly and reasonably related in scale and kind to the development. Therefore, they meet the tests within CIL Regulation 122 and should be taken into account in the decision. I consider that the conditions set out in Paragraph 2.9 of the agreement are satisfied and that the obligations should become effective.*

Secretary of State Determination dated 2 July 2014

Report to the Secretary of State for Communities and Local Government dated 6 June 2014

Land at Pulley Lane, Newland Road and Primsland Way, Droitwich Spa

**Appeal A** - The development proposed is an outline planning application for the development of land for up to 500 dwellings (Class C3); up to 200 unit care facility (Class C2); provision of mixed use local centre to include shop (Class A1); financial & professional services (Class A2); restaurants & café (Class A3); drinking establishment (Class A4); hot food takeaway (Class A5); offices (Class B1a) and police post; indoor bowls facility; means of access and estate roads; public open space; landscaping and infrastructure.

**Appeal B** - The development proposed is an outline application for the construction of a maximum of 265 dwellings with associated car parking, access, infrastructure provision and open space.

**Application:** W/11/01073/OU & W/12/02336/OU Wychavon District Council

*1.15 With regard to **Appeal A** the planning application was submitted in outline form with all matters reserved except for access. A schedule of the application documents and plans on which the SoS is requested to determine the proposal is at BDL 13. The reader should note that the most helpful plan in this schedule is the Indicative Masterplan. The proposed development is described as including the following components:*

- A police post

*70. The contribution towards policing has been requested by the Police and Crime Commissioner for Leicestershire [PCCL/ML/1]. The proposal would increase the workload of the Leicestershire Constabulary in terms of additional calls, nonemergency follow ups and additional vehicle miles amongst other things. The contribution would enable the force to respond to this increased workload. It would therefore accord with CS Policy CS12 and the Local Infrastructure Schedule in the CS [HDC13].*

### **THE CASE FOR THE POLICE AND CRIME COMMISSIONER FOR LEICESTERSHIRE (LP) (Rule 6 party)**

*5.1 The sum of £106,978 is sought by The Police and Crime Commissioner for Leicestershire (LP) towards Police infrastructure that would mitigate the impact of the proposed development. That figure has been arrived at following a close and careful analysis of the current levels of policing demand and deployment in Charnwood, so that the impact of the development could be properly assessed and a contribution sought that accurately reflects the precise need that would arise from the development of 250 new homes on the appeal site. LP3 page 17 contains an itemised breakdown of the anticipated expenditure on Police services/items dedicated towards the appeal development.*

*5.2 It is noted that the Landowner in this matter does not accept that any part of the Police Contribution meets the CIL tests as recited in the Unilateral Undertaking at clause 1.2.10. However, there appears to be no criticism by the Appellant of the approach taken by LP to the contribution requested, and no evidence has been produced to undermine the conclusions LP arrive at as to the nature and level of contribution required to mitigate the impact of the proposed development on LP resources.*

*5.3 The sum requested equates to approximately £427.91 per dwelling. That sum can only be arrived at by working backwards - it is not a roof tax applied to all proposed residential developments in the force area because that would not reflect the individual circumstances and needs of each development. For example, in the Land south of Moira Road appeal APP/G2435/A/13/2192131, the contribution per dwelling amounted to approximately £300 whereas in the Land at Melton Road appeal APP/X2410/A/12/2173673, the contribution worked out to be £590.85 per dwelling. In both instances, the requests were found to be CIL compliant.*

*5.4 Mr Lambert explains through the documentation submitted in respect of the initial application and for this appeal why the Police seek contributions, including the planning policy justification at both national and district level, and the difficulties associated with funding new infrastructure items in response to growth in residential development which places additional demand on police resources.*

## EXAMPLES OF APPEAL DECISIONS RELATING TO POLICE CONTRIBUTIONS

---

*The Inspector considering the Land at Melton Road Appeal at paragraph 291 accepted that "the introduction of additional population and property to an area must have an impact on policing, in the same way as it must on education and library services for example," and went on to conclude:*

*"Moreover, it also seems to me that the twelfth core planning principle of the Framework, that planning should... "take account of and support local strategies to improve health, social and cultural wellbeing for all, and deliver sufficient community and cultural facilities and services to meet local needs", can only be served if policing is adequate to the additional burdens imposed on it in the same way as any other local public service. The logic of this is inescapable. Section 8 of the Framework concerns the promotion of healthy communities and planning decisions, according to paragraph 69, should aim to achieve places which promote, inter alia, "safe and accessible environments where crime and disorder, and the fear of crime, do not undermine quality of life or community cohesion."*

*5.5 Those conclusions were endorsed in the SoS's decision letter at paragraph 20.*

*5.6 Mr Lambert also explains why current revenue sources e.g. Council tax receipts, are insufficient to respond to growth in residential development, and are unable to fund much needed infrastructure to mitigate the additional demand placed on police resources by that growth. That position was examined and verified by external consultants employed by Local Councils in the Leicestershire Growth Impact Assessment of 2009; the Executive Summary is reproduced at Mr Lambert's Appendix 4.*

*5.7 There is no spare capacity in the existing infrastructure to accommodate new growth and any additional demand, in circumstances where additional infrastructure is not provided, would impact on the ability of police to provide a safe and appropriate level of service and to respond to the needs of the local community in an effective way. That outcome would be contrary to policy and without the contribution the development would be unacceptable in planning terms. It is right, as the Inspector accepted in the Melton Road decision (paragraph 292), that adequate policing is fundamental to the concept of sustainable communities. It is therefore necessary for the developer to provide a contribution so that adequate infrastructure and effective policing can be delivered; that is provided for through the Unilateral Undertaking APP10.*

*5.8 Mr Lambert has addressed each and every item of infrastructure required in his evidence and has sought to justify each request by reference to the 3 tests of Regulation 122 of the 2010 Regulations and also paragraph 204 of the NPPF Those tests provide the framework in which LP work to assess the appropriate level of contribution necessary to mitigate the impact of residential development - a process which is under constant review to keep requests up-to-date and accurate as demonstrated by the recent letter dated 14 November 2013 amending the total sum sought in respect of Police vehicles downwards to reflect the fact that an average of 10% of the original value of a vehicle will be redeemed upon disposal.*

*5.9 Furthermore, LP confirms that the contribution can be, and would be spent on infrastructure to serve the appeal development because the sum requested is not required to meet with a funding deficit elsewhere or to service existing development. The contribution sought is therefore directly related to the development.*

## **EXAMPLES OF APPEAL DECISIONS RELATING TO POLICE CONTRIBUTIONS**

---

*5.10 In conclusion, the request for a contribution towards additional Police infrastructure to mitigate the impact of the appeal proposal is a necessary, carefully considered and lawful request. The request is directly related to the development and to mitigating the impacts it would generate based on an examination of present demand levels and existing deployment in the District.*

*5.11 The request is wholly related to the scale and kind to the appeal development and the Inspector, and SoS are respectfully asked to conclude the same.*

*5.12 The Appellant does not accept that any part of the LP requested contribution meets the tests of Regulation 122 of the CIL Regulations 2010. The LPA has indicated that it is neutral in relation to the request.*

*41. At the inquiry, the appellants submitted an engrossed Section 106 Agreement. The planning obligations would secure 30% affordable housing, contributions towards a bus service, bus passes, travel packs, highway improvements, healthcare, libraries, police and the maintenance of the proposed footbridge and public open space that would form part of the scheme. I have considered the evidence provided in writing and at the inquiry, including that from Leicestershire County Council regarding contributions towards libraries and from Leicestershire Police regarding contributions towards policing services and facilities, to demonstrate that the obligations meet the tests in Community Infrastructure Levy Regulation 122.*

**The development proposed is residential development of up to 150 dwellings and parkland with associated access, infrastructure and landscaping.**

**Application: 12/0952/1/OX Blaby District Council**

---

*28. The appellant has submitted an engrossed Section 106 Agreement for Appeal A after the close of the hearing. The planning obligations would secure 25% affordable housing, contributions towards public transport, cycling, a travel pack, highway improvements, healthcare, libraries, police and the maintenance of the public open space that would form part of the scheme. I have considered the evidence provided in writing and at the hearing in support of the contributions to satisfy myself that the obligations meet the tests in Community Infrastructure Levy (CIL) Regulation 122. These tests are that the obligation is necessary to make the development acceptable in planning terms; directly related to the development; and fairly and reasonable related in scale and kind to the development.*

*33. Leicestershire Police (LP) has supported the need for contributions towards policing services and facilities in its statement and at the hearing. The required contributions are significantly less than those considered by the previous Inspector, and LP have suggested that it has used a different method of calculation, based on the impact of the development itself. Therefore, I am satisfied that the sum provided for in the obligation is necessary to make the development acceptable in planning terms, having regard to the requirements in paragraph 58 of the Framework to create safe and accessible environments where crime and disorder, and the fear of crime, do not undermine quality of life or community cohesion.*

*35. Having regard to the above, I conclude on the Section 106 Agreement that all the planning obligations meet the tests in CIL Regulation 122 and paragraph 204 of the Framework. Without the obligations, the proposal would fail to accord with the relevant development plan policies and would have unacceptable impacts on local facilities and services and affordable housing in the District.*

36. *...The additional population would also bring additional policing requirements, which would need to be addressed.*

37. *The s106 Agreement would effectively bind the appellant to providing 18 affordable dwellings as part of the development. It would also require the appellant to make, and the District Council and County Council to disburse, contributions of:*

- *£24,903 towards the capital costs of policing the development*

39. *Evidence submitted to the inquiry showed that, without these contributions, the development would not be acceptable in planning terms because of its harmful impact on local infrastructure. These measures are therefore necessary to mitigate that impact. The need for additional facilities arises directly from the development of the site so the contributions are directly related to it. The extent of additional provision in each case has been carefully considered and is proportionate, appropriate and no more than is necessary to meet the additional demands, so the provisions of the Agreement are fairly and reasonably related in scale and kind to the development. The provisions of the Agreement therefore comply with 203 of the Framework and meet the tests of Regulation 122 of the CIL Regulations 2010. I therefore consider that the harmful impact of the proposal on local infrastructure would be satisfactorily overcome by the binding planning obligations.*

288. *The 'Police Authority Contribution' is for £177,255. The manner in which the authority would seek to spend it is set out in the Third Schedule to the Planning Obligation. By letter to the Planning Inspectorate of 6 August 2012, the Leicestershire Constabulary explained in some detail its approach to the use of S106 monies for police infrastructure throughout the county, supported by a number of appeal decisions in which it was concluded that the contributions in each case passed the relevant tests and could therefore be accorded weight. The letter appends (Appendix 2) a useful note from the Association of Chief Police Officers which draws the distinction between capital expenditure on equipment and premises, the basic infrastructure of policing, and revenue expenditure which might reasonably be expected to be supported by the increased number of households. A January 2012 policy statement from the Leicestershire Police Authority Policing Contributions from Development Schemes is also included. This sets out its approach to the increased pressure on policing from additional housing development. The document includes at Section 7 the principles whereby financial contributions will be deployed, including provision for repayment if the police authority fails to spend the contributions, linkage to the development in question and use for additional needs arising from it and a "clear audit trail demonstrating that financial contributions have been used in a manner that meets the tests" (in the subsequently cancelled Circular 05/2005 Planning Obligations.)*

289. *Those tests are essentially the same as those of the extant CIL Regulations and hence there is a clear recognition by the Leicestershire Police Authority that development is not simply a source of additional finance to be spent in an unspecified or unrelated way. Moreover, the appellant in this case has "signed up" to the Policing Contribution, albeit under, it seems, protest. The evidence of Mr Thorley<sup>77</sup> addresses this matter at Section 12 and his Appendix 1078 is a paper on the topic that refers to a number of appeal decisions where a contribution to policing has not been supported, for example the appeal in Sapcote (Ref APP/T2405/A/11/2164413) in which the Inspector comments, in paragraph 41 of his decision, that... "it has not been shown, in the light of the statutory tests, that the contribution would be directly linked to the impacts arising from the appeal*

290. *Equally, the material submitted by the Police Authority under cover of its letter of 6 August 2012 includes a number of appeal decisions pointing in the opposite direction, for example the appeal in Bottesford (Ref APP/Y2430/A/11/2161786) where the Inspector comments, in paragraph 68, that "there was also specific justification of the individual elements within this global sum directly related to the circumstances of the appeal proposal. Therefore the contribution does meet all three tests for CIL compliance."*

## EXAMPLES OF APPEAL DECISIONS RELATING TO POLICE CONTRIBUTIONS

---

291. *The Inspectors will have reached their own conclusions on the particular evidence and submissions put to them at appeal and I shall approach the evidence in this case in the same way, i.e. on its merits. It seems to me that the introduction of additional population and property to an area must have an impact on policing, in the same way as it must on education and library services, for example. Moreover, it also seems to me that the twelfth core planning principle of the Framework, that planning should... “take account of and support local strategies to improve health, social and cultural wellbeing for all, and deliver sufficient community and cultural facilities and services to meet local needs”, can only be served if policing is adequate to the additional burdens imposed on it in the same way as any other local public service. The logic of this is inescapable. Section 8 of the Framework concerns the promotion of healthy communities and planning decisions, according to paragraph 69, should aim to achieve places which promote, inter alia, “safe and accessible environments where crime and disorder, and the fear of crime, do not undermine quality of life or community cohesion.”*

292. *Adequate policing is so fundamental to the concept of sustainable communities that I can see no reason, in principle, why it should be excluded from the purview of S106 financial contributions, subject to the relevant tests applicable to other public services. There is no reason, it seems to me why police equipment and other items of capital expenditure necessitated by additional development should not be so funded, alongside, for example, additional classrooms and stock and equipment for libraries.*

293. *In this case, the planning obligation clearly sets out in its third schedule the items anticipated to be needed as a consequence of policing the proposed development alongside the existing settlement and apportioned accordingly. It seems to me to be sufficiently transparent to be auditable and at a cost equivalent to, perhaps (if 300 dwellings are constructed) £590.85 per dwelling, it does not equate to an arbitrary “roof tax” of the type complained of, whatever previous practice may have been.*

294. *For these reasons I am of the view that the ‘Police Authority Contribution’ is compliant with the CIL Regulations and that weight should therefore be accorded to it as a means of mitigating the predicted impact of the development.*

*3. Likewise, the main parties agree that the provision of some 18 dwellings as affordable housing (30% of 60, in accordance with the Council’s policy), together with various financial contributions towards local infrastructure - including payments to the Council, Leicestershire County Council and Leicestershire Police - would be met by the terms of a unilateral planning obligation [Doc 4], submitted at the hearing.*

*35. At the hearing the appellants tabled a signed and executed S106 unilateral planning obligation containing various clauses including: (in schedule 1) those relating to the provision of 18 units of affordable housing; (in schedule 2) the payment of monies to the Council comprising a health facilities contribution (approx. £14,000), a police contribution (approx. £25,000), and an open space contribution (approx. £42,000); and (in schedule 3) payments to Leicestershire County Council towards education (approx. £110,000) and transport (approx. £17,000); together with miscellaneous matters.*

*36. There was some discussion at the hearing as to the justification for some of the financial contributions sought. However, having regard to all the evidence to the hearing, and the criteria in para. 204 of the Framework, I am satisfied that all these provisions for infrastructure payments are necessary to make the development acceptable in planning terms; directly related to the development; and fairly and reasonably related in scale and kind to the development. They also meet the 3 statutory tests set out in regulation 122 of the Community Infrastructure Levy Regulations 2010 (as amended).*

Appeal Ref. APP/F2415/A/12/2179844

Appeal Decision dated 14 February 2013

Land north of Bill Crane Way, Lutterworth, Leicestershire.

The application sought outline planning permission for residential development with associated infrastructure, public open space and provision of vehicular and pedestrian access without complying with a condition attached to planning permission Ref 11/00117/OUT, dated 23 January 2012.

Application: P/12/00613/VAC Harborough District Council

---

27. *Whilst the Council and the County Council confirmed that the terms of the submitted UU were acceptable, the appellant questioned whether the contribution in respect of policing was compliant with the tests set out in the CIL Regulations. The appellant suggests that there is no evidence that the proposed development would result in a need for increased police resources. It is also argued that there should be no automatic assumption that the development should bear the cost of the provision of additional policing since the anticipated growth of such costs in this area could have been budgeted for and the new residents will generate Council Tax revenue.*

28. *However, it is recognised by both the County Council and the Council's guidance<sup>1</sup> that a contribution towards policing could be triggered if there is a need arising from the development. The guidance therefore establishes the principle of a contribution although there needs to be clear evidence that the level of contribution would be justified having regard to the tests set out in the CIL Regulations.*

29. *The written evidence submitted by Leicestershire Police detailed the impact the proposed development would have on policing, forecasting the number of potential incidents and the anticipated effect this would have on staffing, accommodation, vehicles and equipment. In view of the requirement of national planning policy to create safe and accessible environments where crime and disorder, and the fear of crime, do not undermine quality of life, it is considered that, on the evidence before me, a contribution towards policing is necessary to make the development acceptable in planning terms.*

30. *Whilst the additional staff, accommodation, vehicles and equipment detailed by the Police could not be regarded as being for the exclusive use of the development, they would be necessary to provide for the effective policing of and to attend incidents on the site. In addition the number of staff and level of resources required to police the development has been based on the number of incidents estimated to be generated by the site. In respect of policing services the UU makes provision for the payment of £426 per dwelling and this is the figure sought by Leicestershire Police. The level and range of the mitigation would therefore appear to be directly related to the development and also to be fairly and reasonably related in scale and kind to it.*

31. *I have had regard to the fact that the s106 Agreement, dated 18 January 2012, in respect of the existing outline planning permission makes provision for a contribution of £606 per dwelling for policing. The appellant has indicated that this agreement was concluded under time pressure and the*

*police have had a change in policy since, under which only major developments would be targeted for contributions. However, the report also states that contributions would be pursued where a significant impact on policing is foreseen and can be quantified. It would appear that the most relevant implication of the change in policy is that the contribution required by the police in respect of this appeal was reduced following quantification of the anticipated effect of the development. This affirms my view that the UU before me meets the CIL tests.*

32. *Reference has been made to a number of appeal decisions where it has been concluded that the police contributions failed to meet the tests and others where a contrary conclusion has been reached. However, I am not aware of the scope of the evidence provided in these cases and a comparison with the appeal cannot therefore be made.*

33. *On the basis of the evidence before me, therefore, I am satisfied that the contribution towards policing set out in the UU is necessary, directly related to the development and fairly and reasonably related to it in scale and kind – as required by the tests set out in the CIL Regulations. I conclude the same with regard to the elements of the UU which are not in dispute and I have taken the UU into consideration in reaching my decision.*
