CIL Examination Hearing – 29 November 2016

Request from the Examiner emerging from the CIL Hearing for the SWC to provide definitions on the following typologies of development:

Extra Care/ sheltered housing is housing offering self-contained homes, with access to on-site care, to retirees.

Supermarkets are retail shops selling food and household items on a self service basis with the products usually, but not necessarily, arranged in aisles. They can also, but not necessarily, include a range of comparison goods in the overall retail mix. There is no minimum or maximum size. Customers may, but not wholly, use supermarkets for their main weekly shop.

It is proposed that these are added to the CIL Draft Charging Schedule at Appendix D Glossary of Definitions as a modification to the glossary.
